

Ntt.101MarkII

NttAudiolab is proud to announce the amazing 101s had completed upgrade Dec, 2009 is 101.MarkII. One does not get to this point without years of research & development, imagination and a set of very gifted ears. Ntt AudioLab has always set their goals higher and higher with every generation of speaker. The long pursuit to reach true sound has culminated with the 101.MarkII. We believe they are among the finest speakers in the high end audiophile world. Performance, appearance and quality are unequaled. Meticulously hand crafted enclosures with beautiful double radius corners and subtle cabinet angles make the 101S an absolutely stunning piece of furniture. The top section tilts down slightly, supported by Stealth wing like arms and no ugly exposed jumper wire connections from box to box. These features, along with others, define the innovative mind of the designer. On the technical side NttAudiolab has upgrade uses drivers of the highest quality, top of the line crossover components, pure copper and solid silver internal wiring and WBT binding posts. The Ntt.101MarkII we be have believe 150% better 101s and don't let their big size and big sound fool you. Even though they will fill a concert hall sized room they have the finesse to perform equally as well in a small intimate setting. The 101MarkII is Nttaudiolab's answer to our pursuit of true sound.

In the world of loud speakers, there are many loud voices screaming to tell you why they are the best. Timeless knowledge teaches us that those who truly have achieved a higher level...have no need to shout about it.
